CONGRESS.

THIRTY-THIRD CONGRESS-FIRST SESSION.

House of Representatives. After our report closed yesterday, Mr. Smith, of New York, submitted the wing preamble and resolutions:

1st. Whereas all the members of the ku

family, notwithstanding all contrary enactments and arrangements, have, at all times and in all circumstances, as equal a right to the soil as to the light and the air, because as equal a natural need of the one as of the others; and whereas this invariably equal right to the soil leaves no room to buy, or sell, or give it

away:

Resolved, therefore, That no bill or proposition should find any favor with Congress which implies the right of Congress to dispose of the public lands, or any part of them, either by

sale or gift.

2d. Resolved, That the duty of civil government in regard to public lands, and indeed to all lands, is but to regulate the occupation of

all lands, is but to regulate the occupation of them; and that this regulation should ever proceed upon the principle that the right of all persons to the soil—to the great source of human subsistence—is as equal, as inherent, and as sacred, as the right to life itself.

3d. Resolved, That Government will have done but little toward securing the equal right to land, until it shall have made essential to the validity of every claim to land, both the fact that it is inctually possessed, and the fact that it does not exceed in quantity the maximum which it is the duty of Government to prescribe.

4th. Resolved. That it is not because land monopoly is the most efficient cause of inordi-nate and tyrannical riches on the one hand, and of dependent and abject poverty on the other; and that it is not because it is therefore the most efficient cause of that inequality of condi-tion so well-nigh fatal to the spread of Democracy and Christianity, that Government is called on to abolish it; but it is because the right, which this mighty agent of evil violates and tramples under foot, is among those clear, certain, essential, natural rights which it is the province of Government to protect at all hazards, and irrespective of all consequences.

On motion by Mr. Hibbard, the preamble

of motion by Mr. Alboard, the preamble and resolutions were laid on the table.

Mr. McDougal, of California, in pursuance of notice, introduced a bill to provide for the establishment of a line of military posts and establishment of a line of military posts and a common road; also, authorizing the construc-tion of a telegraph line and a railroad from the valley of the Mississippi to the bay of San Francisco; which was read twice, and referred to a special committee of thirteen. The House adjourned.

Mr. Douglas gave notice that on Monday next he would move to take up the bill establishing a Territorial Government for Nebraska.

Mr. Sumner presented a memorial from New York, signed, he said, by men who have become York, signed, he said, by men who have become eminent in the various walks of life, among whom he named William Jay and John Jay, a name distinguished through several generations, and also the name of their late associate in the Senate, the Hon. John P. Hale. The petition prayed the adoption by Congress of such measures as would forever terminate all connection, on the part of the Government, with Slavery and the slave trade. As the subject-matter of the petition appropriately belonged to no one of the standing committees of the Senate, he would not move its reference, but suffer it to lie on the table until the proposition to raise a select committee on the subject

SCHOOLS IN THE DISTRICT OF COLUMBIA. Testerday, in the House of Representatives, on motion of Mr. Haven, it was resolved that "the Committee on the District of Columbia be instructed to inquire whether there are any, and if any, what, laws now in force in the District of Columbia, in reference to schools in said District; and that said committee further inquire whether legislation is needed and expedient by Congress on the subject of common schools within said District; and that said committee report by bill or otherwise." We rejoice in the hope that this resolution will lead to great good. Our schools need the guardianship and aid of the only Legislature we possess.

THE GARDINER TRIAL .- The abstraction from the court-room of certain papers important to this trial is the present most interesting feature. Dr. Gardiner has published in the Sentinel a vindication of himself from the imputation of having taken them, and con-

cludes by saying of one of the papers: "I solemnly aver that the loss of this paper is of the greatest possible injury to my cause, and the greatest misfortune that could have befallen me; whilst its disappearace, as at present advised, I believe will be the only obstacle to my exposing the false and malicious foundations of this prosecution."

FRENCH'S RAILROAD IMPROVEMENT .- There s now on exhibition at the Capitol, the model of an improvement in railroads on high grades and level lines. It is stated that by the appro priation of \$10,000 from the Legislature of Virginia, he built a road with a grade of two hundred feet to the mile-the engine made use of weighed three tons and a quarter. It carried up this incline, a train with one hundred passengers, at a speed of fifteen miles to the hour, stopping and starting at any portion of the ineline, either ascending or descending. The whole train was perfectly controlled by the

PROPOSED RAILROAD THROUGH THE CITY OF WASHINGTON.

George W. Yerby, Horace M. Dewey, Eph raim Schutt, and John L. Brown, have petitioned Congress for the privilege of laying and working a railroad for city travel, from the Navy Yard to Georgetown, through Pennsylvania avenue and other streets.

They express the belief that a cheap, easy, and commodious mode of travelling from one extremity of the city to the other and into Georgetown, is indispensably necessary to our growth and development; that by laying the new style of grooved rail, similar to that used in Northern cities, and by the use of light, neat, and well-finished cars, which move noiselessly and steadily, the Avenue will be improved both in utility and appearance, and no obstruction will be caused to vehicles, either crossing or running parallel with the rails, which in fact are to be nothing more than so much iron pavement lying even with the surface of the stone payement alongside. The space occupied by the double track is not to exceed fifteen feet, leaving over one hundred feet for carriages

They further state that this will bring the Navy Yard and Georgetown within half an hour's ride of each other for the small sum of

It provides, also, that no more than a reaonable time be required for the completion of the road, and that the Company will be restricted in the rate of fare, which will not exceed six and a quarter cents for a passenger, and that no steam-power will be used, &c.

We are also informed that if the charte asked be granted, the stock of the proposed company will be sold in shares in this city, and that the parties are entirely willing to submit to all regulations at any time desired by the

The advantages of this scheme to the public will unquestionably be many and important. It contemplates a great and salutary improvement, and one that cannot fail to conduce to the public convenience, and to the pecuniary interests of the owners of real estate throughout the entire line of road described.

What its disadvantages may prove we are not prepared to say, but we will here express the opinion that they can only arise from un-necessary and avoidable abuses.

IMPRISONMENT FOR DEBT .- A bill, abolishing imprisonment for debt, and making all the debtor's property, real and personal, attachable upon the original writ, has just been reported to the Rhode Island General Assembly, by a select committee appointed at the last see of that body to consider the subject.

PROSPECTUS OF THE PROHIBITIONIST.

IMPROVED CHRONOMETER WATCHES "If any State deems the retail and internal traffic "If any State deems the retail and internal traffic in ardent spirits injurious to its citizens, and calculated to produce indeness, vice, or debauchery, I see nothing in the Constitution of the United States to prevent it from regulating or restraining the traffic, or from prohibiting it altogether, if it thinks proper."

On or before the 1st of January, 1854, the Executive Committee of the New York State Temperrance Society will issue the first number of a Monthly Temperance Journal, under the title of "The Prohibitionist."

Its Size—It will be printed on a double medium sheet, making eight quarto pages, of four columns to IN plain and hunting cases, of every variety of style In plain and numing cases, or delegant styles, just received from the manufactory of Charles Frodsham, 84 Strand, London.

sheet, making eight quarto pages, of four columns to a page; and excluding advertisements, each number will contain an amount of reading matter equal at least to that furnished by our larger-sized daily jour-nals, or to that of an ordinary duodecimo volume of 150 pages.

Trs Object.—To advocate the Cause of Temper-

ance generally, and especially the Legislative Prohibi-tion of the Traffic in Intoxicating Beverages, to pre-pare the minds of the masses for such Prohibition, by showing its expediency and Necessity, and to secure, by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when ob-tained.

Jan. 4—d6t No. 5, opposite Centre Market. ITS FIELD.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists and with facts illustrative of these arguments and principles, the paper will be National in its spirit, in its scope, in its purpose, and, we trust, it will be National in its circulation and influence. Such is our aim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end THE PROHIBITIONIST is established, not as the organ of a society merely, but of a Great Reformatory Movement.

Its Necessity.—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. THE Pro-Hibitionist is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

Its Price—One copy for one year. ITS FIELD.-Dealing with general principles, with Schooner Fairfax—C. Penfield, mas'er.

From the United States Argus.

To those persons who may visit Washington, and are in want of a boot that cannot be excelled, either in quality or workmanship, we would call their attention to the card of Henry Janney, to be found under the head of "Washington." A handsome and neatly-made boot is not at all times a source of pleasure to the wearer, but often one of extreme forture; this is caused by the bungling manner in which the boot is fitted to the foot. Mr. Janney has devoted much of his time in studying the construction of the human foot, in order to ascertain how a boot should be cut and fitted, that will be perfectly easy to all parts of the foot. In this he has succeeded, so that it matters not what may be the shape of, or the number of corns on the foot, his boot is perfectly easy. Thus he has combined beauty with comfort.
